PAYMENT TERMS AND CONDITIONS

- A 100% prepayment is required before the start of your program.
- Installment payments are accepted; however, the full amount must be completed in two installments within two months of the first payment.
- All payments must be received by 30th November 2024.

REFUND POLICY

- If the IVF program has not started, a full refund (minus a 10% service charge) is possible. Refunds require a minimum waiting period of ten (10) working days from the notification date. If less than 10 working days, a 20% service charge will be deducted.
- In case of program cancellation due to poor ovarian response, a partial refund may be provided after deducting the **cost of medications, Mock Embryo Transfer**, and a 20% service charge.
- Once the egg fertilization process has begun, **no refund** will be issued.
- If the program is withdrawn after the Mock Embryo Transfer procedure, a refund may be available after deducting the **cost of the procedure, medications**, and a 20% service charge.

MULTIPLE CYCLES CONTRACT AGREEMENT

(For patients enrolled in multiple cycles programs):

- The contract is fulfilled once pregnancy is achieved and a foetal pole with cardiac activity is identified at 7 to 8 weeks. In the case of pregnancy loss after 8 weeks, a new treatment program will need to be purchased.
- **No refund** will be issued for failed cycles. However, patients are encouraged to begin the next cycle immediately to prevent program/treatment inactivity. A treatment inactivity of more than six (6) months will result in contract termination unless medically justified.
- In the event of a **failed cycle**, if you wish to switch to the **Egg Recipient Program**, you will need to pay 25% of the total program fee (applicable only to Owned IVF Programs).
